

KNOWLEDGE MAPPING & DATA VISUALIZATION PROJECT

The impact of Covid-19 on education by region

- ♦ The virus as known as Covid-19 we are facing today has created many problems.
- ♦ One of these problems is experienced in education. Due to the pandemic caused by the virus, many students around the world receive inadequate education.
- ♦ Because of Covid-19 , schools for more than 168 million children globally have been closed for almost a full year .

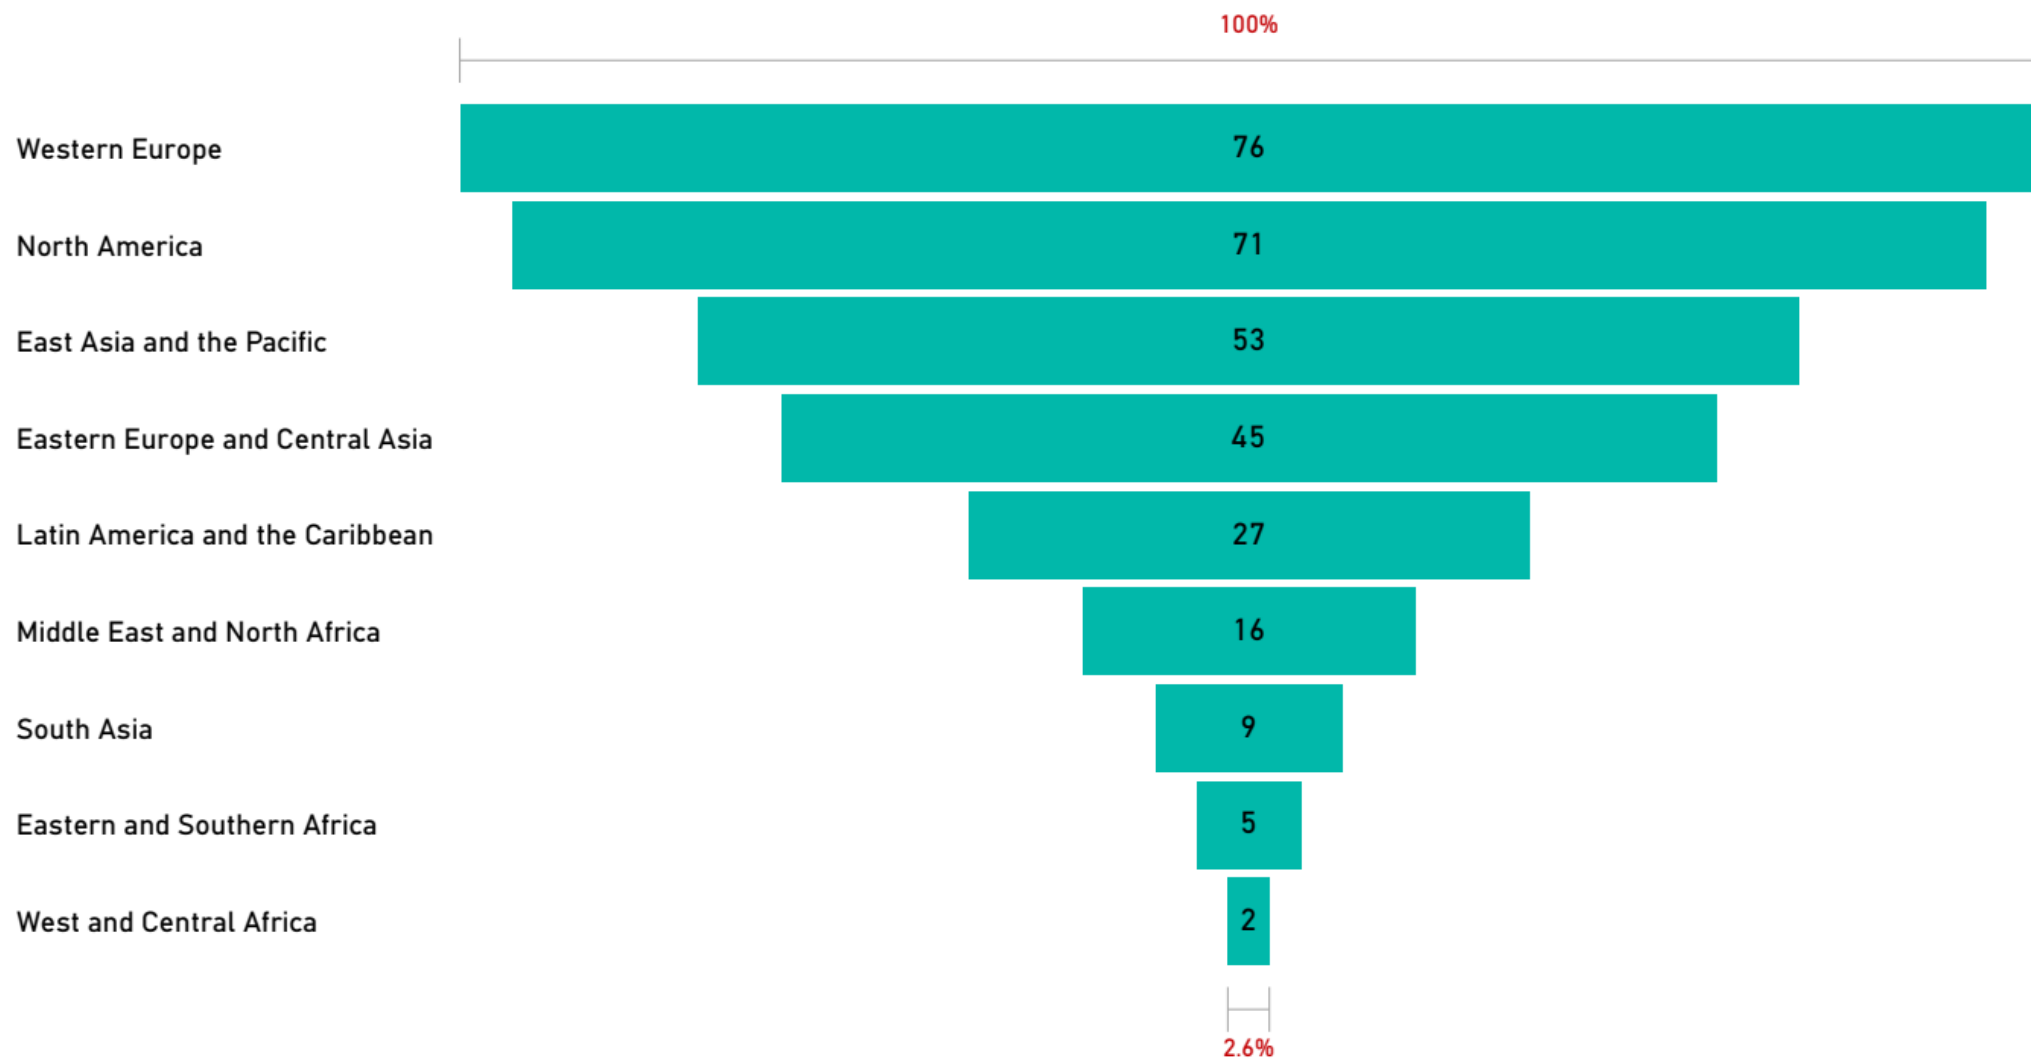

NUMBER OF STUDENTS EFFECTED BY REGION

- ♦ According to the graph, the effects of this pandemic on education have been experienced differently in different regions.
- ♦ The highest average number of days when classroom instruction was disrupted was seen in the Latin America and the Caribbean region.
- ♦ On the other hand , The lowest average number of days when classroom instruction was disrupted was seen in the North America.
- ♦ Because of the schools closed, students are connected to the lessons from home. Now let's look at the number of students accessing the internet from home by region.

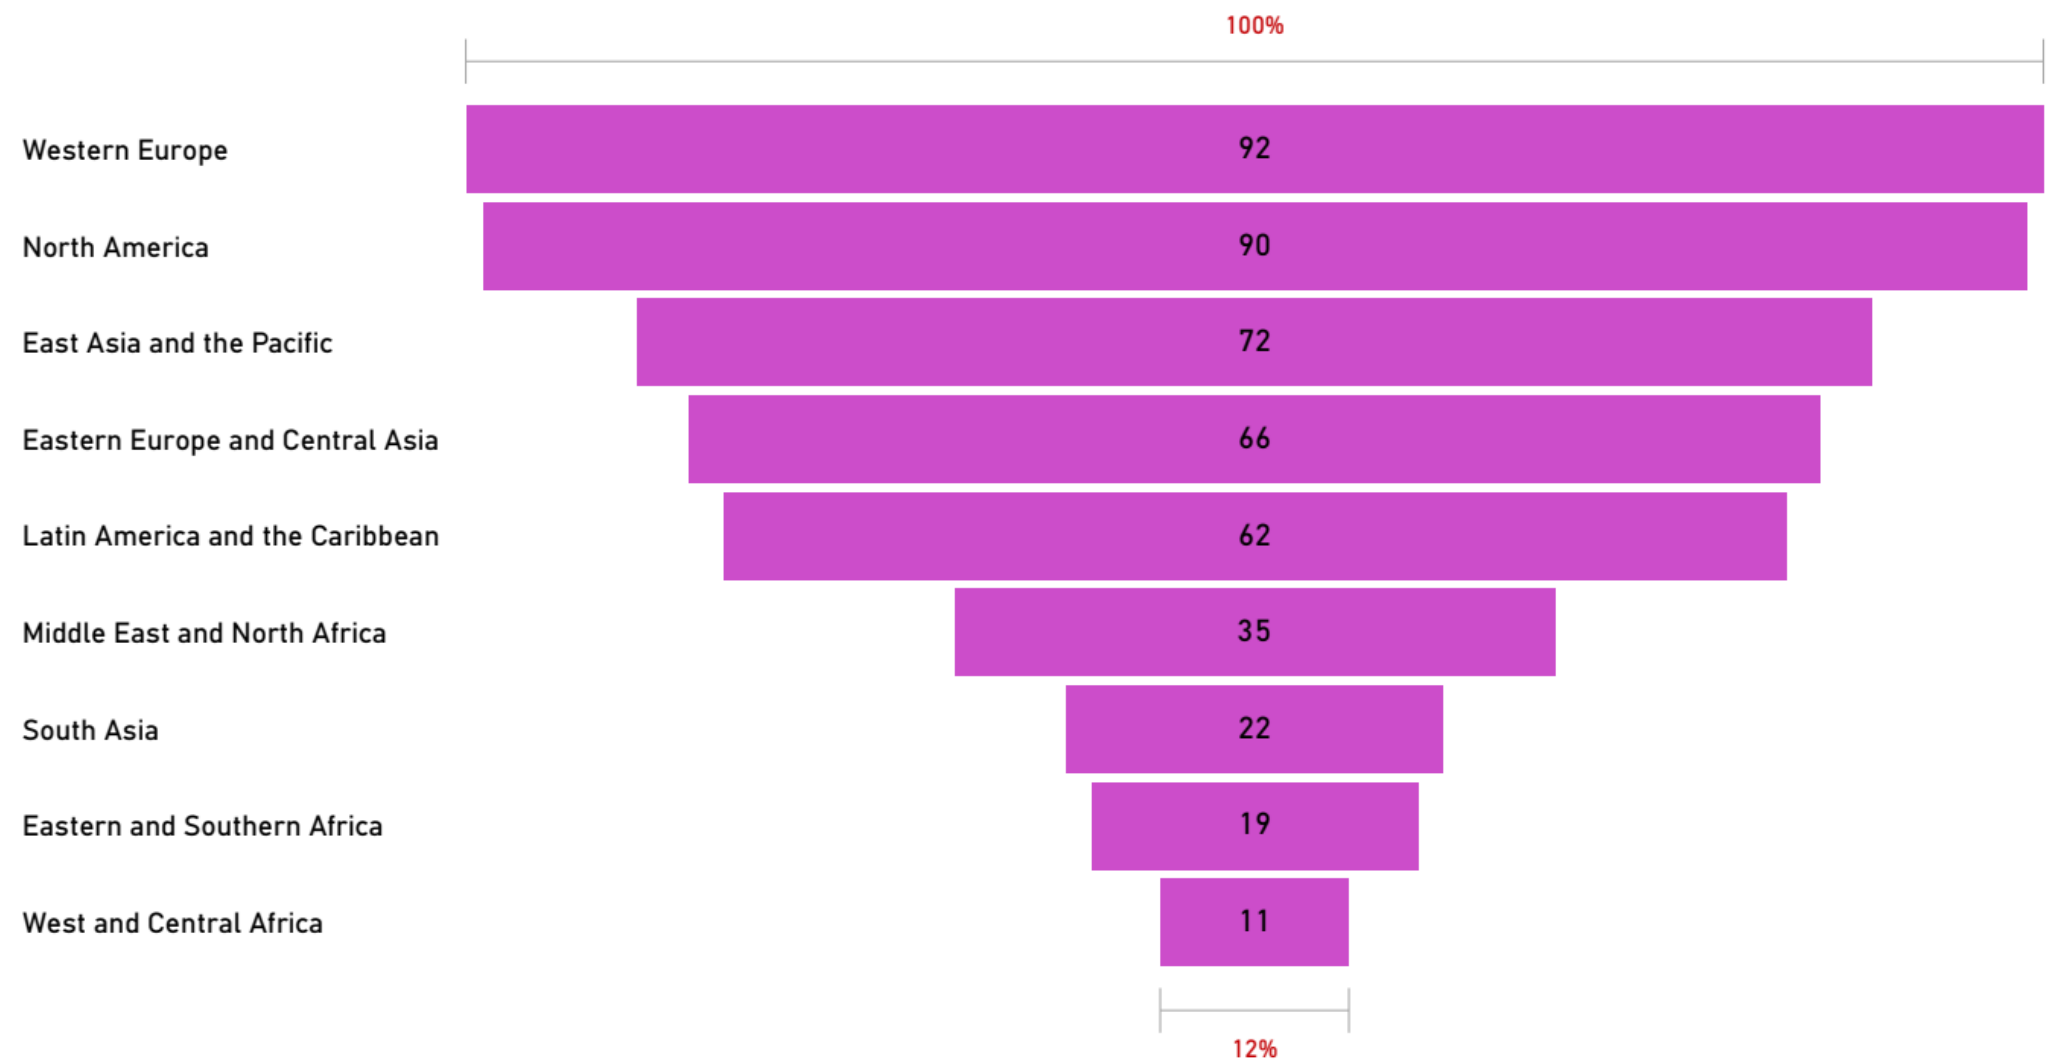

PERCENTAGE OF STUDENTS WITH INTERNET ACCESS AT HOME (RURAL) BY REGION

Percentage of students with internet access at home (Rural) by Region
